

Suma Rinse

Neutral rinse aid

A5

Description

Suma Rinse A5 is a low foam general purpose rinse additive for machine ware washing.

Key properties

Suma Rinse A5 is a standard neutral rinse additive. It has been specially formulated for use in a wide range of ware washing machines. The product contains a special blend of non-ionic surfactants for rapid, spot and streak free drying on all cleaned surfaces in soft and medium hard water conditions.

Suma Rinse A5 is also supplied in SafePack packaging, providing a closed system with unique colour coded key connectors to prevent personal exposure and reduce confusion.

Benefits

- Ensures quick drying
- Gives streak and spot-free results
- Low foaming action for more efficient operation

Use instructions

Suma Rinse A5 is normally injected automatically into the final rinse water of ware wash machines at a concentration of 0.2-0.5 ml/l at temperatures of 80 – 90 °C, using Diversey automatic dispensing equipment, or integral dosing pumps if fitted. It may also be applied manually into the rinse aid reservoir of smaller ware washing machines.

Actual dosage levels are determined according to local site conditions.

Technical data

Appearance	clear blue liquid
pH neat	5.3
Relative density (20°C)	1.01

These figures are typical values and should not be interpreted as specifications.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.

Store in original container. Avoid extremes of temperature.

Product compatibility

Under recommended conditions of use, **Suma Rinse A5** is suitable for use on most materials commonly encountered in the kitchen.
